Note: Your account will be billed for the replacement cost of the meter if it is found to be damaged upon return OR if the meter is not returned by the specified date.

**INSTRUCTIONS OF CONNECTION OF
SWIMMING POOL FILLING METER**

THE SWIMMING POOL FILLING METER SHALL BE CONNECTED TO THE CUSTOMER'S RESIDENTIAL EXTERIOR HOSE BIBB IN ACCORDANCE WITH THE DISTRICT'S APPROVED PROCEDURES.

THE PROCEDURES ARE AS FOLLOWS:

1. The swimming pool filling meter will be provided with a four (4) foot section of hose and a backflow prevention device connected to the inlet side of the meter.
2. Connect the loose end of the hose to the exterior hose bibb to be used to fill the swimming pool.
3. The outlet side of the meter will have a fitting which is to be connected to the customer's hose to be used to fill the swimming pool.
4. When the swimming pool filling is complete, disconnect the meter and return it to the District Administrative Office.

*Report any problems with this meter to the District immediately.
740-927-0410*

**This meter must be returned to the District Administrative Office
within seven (7) days after execution of this application.
The sanitary sewer service charge will not be reduced unless the meter is returned for
calculation of the consumption.**
