**RE: Groundwater Well Survey
Southwest Licking Community Water & Sewer District**

Dear Property Owner:

On behalf of the Southwest Licking Community Water & Sewer District (SWLCWSD), Eagon & Associates, Inc. is preparing to perform a residential well survey in Kirkersville, Ohio. The SWLCWSD is currently upgrading its water supply system by installing new wells and completing a waterline extension to wells located near the intersection of US Rt. 40 and Outville Road.

The new wells will provide additional sources of groundwater to the SWLCWSD water system. Eagon & Associates, Inc., a geologic consulting firm, has compiled a database of private water wells in the area and will be conducting in-person surveys of these wells within approximately one mile of the new wells from August 1 through August 15, 2022. The data collected prior to startup of the new well fields will serve as a baseline for evaluation of any concerns well owners may have during operation.

With your permission, we will examine your well and measure the well depth, pump depth, and static and pumping water levels. In addition, water-quality samples will be collected to document baseline water-quality conditions. Each survey will last approximately one hour. There is no cost to you associated with the well survey and you will be provided with all information/results from the survey of your well. It is requested that you contact Eagon & Associates at (614) 888-5760 upon receipt of this letter to schedule an appointment time for a representative from Eagon & Associates to survey your well during the week of August 1st or August 8th.

The SWLCWSD is committed to the responsible development of groundwater resources and we are asking for your cooperation in this effort to collect background information on your well. In addition to this one-time survey, certain wells may be selected for additional measurement as part of a long-term program to monitor water levels following startup of the new wells.

Please contact Chris Gordon or Ryan Jones of Eagon & Associates at (614) 888-5760 to schedule an appointment to complete the well survey.

Sincerely,

A handwritten signature in black ink that reads "Christopher P. Gordon". The signature is written in a cursive, flowing style.
