JOB POSTING – Water Treatment Plant Operator

Posted: December 16, 2020

The Districts water treatment department has an opening for the following position:

Job Title: Water Treatment Plant Operator

Pay Range: \$20.00 - \$25.00 DOQ

Interested candidates should submit a resume and cover letter to CJ Gilcher, Utilities Superintendent. This posting will remain open until January 15, 2021 or until filled.

Minimum Qualifications:

- High School Diploma or equivalent
- Valid Driver's License
- Class I Water Treatment Operator Certification or the ability to obtain a Class I Water Treatment Operator Certification within two years from the date of hire
- 6 months experience in operating a water treatment facility and/or water distribution system, or any combination of experience and training sufficient to indicate ability to perform the work (Pressure Filtration and/or Reverse Osmosis Treatment Systems experience is a plus)

Required Skills, Knowledge, and Abilities:

- Basic knowledge of the principals, materials, and equipment used in water treatment and distribution systems
- Basic knowledge of the principals and practices involved in the operation of electric motors, pumps, variable frequency drives (VFD's), programmable logic controllers (PLC's), and other electrical and mechanical equipment
- Ability to read meters and charts accurately, maintain records, and complete operating reports
- Ability to understand and follow detailed laboratory and operating system procedures
- Ability to work in a team/collaborative environment
- Good verbal and written communication skills
- Ability to use computer with basic skills in Microsoft Office, ARC GIS, and Supervisory Control And Data Acquisition (SCADA)

Examples of Work Performed:

- Operates, cleans, and maintains system equipment
- Operates and adjusts valves, fire hydrants, pumps and other appurtenances in accordance with the operational needs of the facility and distribution system
- Observes variations in system operating conditions, completes daily operational logs and reports back to the Water Treatment Supervisor

- Makes adjustments to equipment and chemical feed rates under the direction of the Water Treatment Supervisor
- Makes minor repairs to pumps, motors, controls, valves, and other associated treatment and distribution equipment as directed
- Collects samples and performs a variety of laboratory tests to determine the operating conditions of the system
- Performs preventative maintenance, troubleshoots and repairs facility equipment as required
- Performs any other duties assigned by the Water Treatment Supervisor
- Participates in the on-call emergency operator rotation

To Apply: Please submit your resume and cover letter detailing your credentials, experience, and references:
